Omni Power Station

The Omni Power Station is an all-in-one solution to help you distribute power wherever, and whenever it's needed. The Omni Power Station is designed for forward-thinking organizations that understand the need to provide portable power access to people so they can stay powered anywhere, on or off-site, without being tethered to fixed infrastructure constraints.

All in one power solution

Fast and easy deployment

Plug & Play system

WHAT'S IN THE BOX

The Omni Power Station comes with everything you need to get started, including the Omni 20+, the base station, and the power cable.

USER
MANUAL

GETTING TO KNOW THE POWER STATION

The Omni Power Station is a simple plug-and-play device. Just plug into an AC outlet, and you are ready to go.

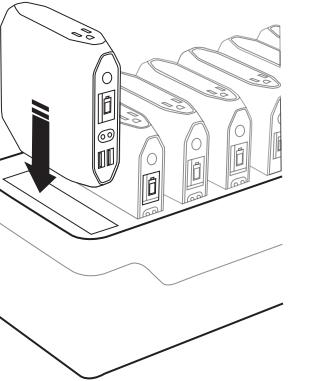

SETTING UP THE POWER STATION

Before setting up your Power Station, make sure you have a suitable location. Do not place the station in direct sunlight, next to an active heat source, or in an environment that is excessively dusty.

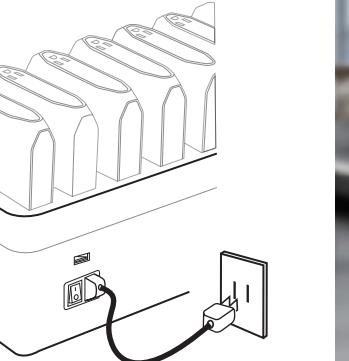

STEP 1:

Place the chargers into the open bays with the AC port facing upwards and the screen facing front.

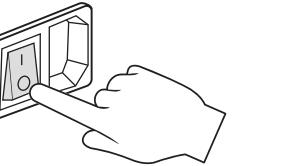

STEP 2:

Plug the AC power cable into the base of the power station, and connect it to a power outlet.

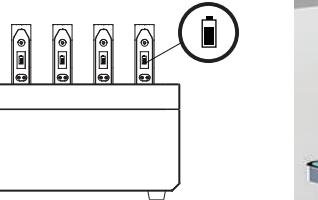

STEP 3:

Press the power button on the back side of the powerstation to turn it on.

STEP 4:

Wait until the charging icon displays in all the charger screens, meaning it is well connected and charging the Omni 20+.

Note: The chargers require no force when connecting them to the charging bay. Make sure the charger is level when pushed into the slot and not crooked. Never force the Omnidapter into the charging base.

..omnicharge® Omni 20+

The Omni 20+ is a portable laptop charger that is fast and reliable. Perfect for charging laptops, cell phones, and any other piece of tech you need on the go. It's the perfect power companion. With high-power capabilities for fast, wireless charging, you can get the benefits of flexible and reliable power from this powerbank no matter where you are.

100W

60W

2X 18W

10W

WIRELESS CHARGING MAX OUTPUT 10W

Place your phone on top of the Omnicharge to get fast and reliable wireless charging. For optimal wireless charging, align your phone horizontally with the back edge of the Omnicharge as shown in the picture and make sure the USB-A mode is ON.

Note: You will see a flashing wireless icon when the phone has been detected.

Note: The optimal charging range varies depending on the size of the receiver coil of your phone. Some phone models have small receiver coils and can experience sudden interruptions after few seconds of charging. This is because of minor alignment deviations between the transmitter and receiver coil. Please lift up the phone, wait a few seconds and finetune the position until you get a stable wireless charge.

AC OUTLET MAX OUTPUT 100W

To change the AC output mode, double press the Power Button to enter the menu and select Wall Socket.

1. Choose 120V AC/150V HVDC mode in the menu

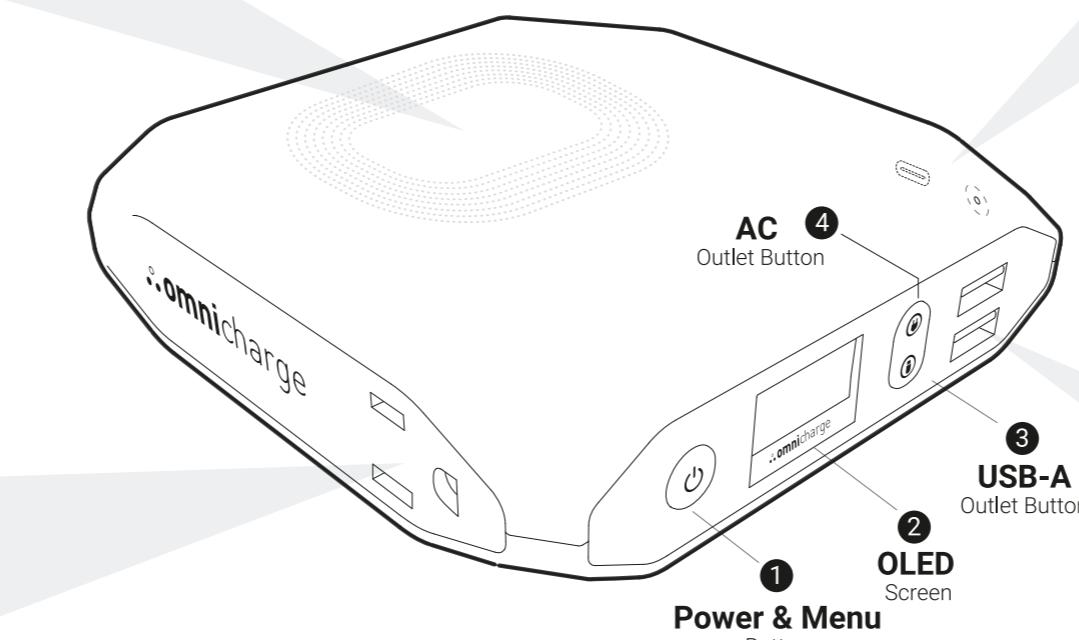

Note: 150V HVDC is recommended if you are using a switch mode power supply, such as laptop's AC power adapter. Check our support page at www.omnicharge.co for more detailed information.

2. When AC/HVDC is active, the following icons should appear on the screen

AC AC output HV DC HVDC output

3. Power any device

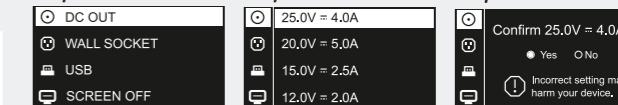

DC PORT MAX OUTPUT 5A - 100W

The DC output feature allows you to directly output DC power through the barrel port. To use this feature you will need to know the voltage and amperage of your device and have a compatible cable.

Warning: Using the wrong voltage may damage your device.

Enabling DC Output

Step 1 → **Step 2** → **Step 3**

DC Once active, a DC icon will appear on the screen.

Omnicharge keeps 4 voltage presets. You can press and hold the power button while selecting a preset to customize the voltage and amperage.

USB-C PORT MAX OUTPUT 60W

The USB-C port is always on and needs no configuration. Simply plug your USB-C device into the USB-C port to start charging.

Note: The USB-C and DC port share the same power circuit and cannot be used at the same time.

USB-A PORTS MAX OUTPUT 18W

USB-A Ports: Quick Charge QC3.0 compatible, 18W Max

1. Choose whether the USB output is ON or OFF by default.

BUTTON FUNCTIONS

PRIMARY CONTROLS

- ① • Long press to power On
- ② • Double press to enter the menu
- ③ • Quick press to select
- ④ • On/Off AC Outlet
- ⑤ • On/Off USB Ports

MENU CONTROLS

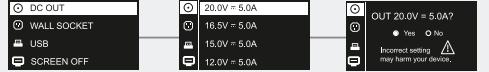

- ⑥ • Move Up
- ⑦ • Move Down

MENU NAVIGATION

Double press the power button to access the menu, quick press it to select any function, and use the AC and USB buttons to move up or down.

1. DC OUT

Turn on DC output. Set the voltage and amperage by long pressing the power button.

2. WALL SOCKET

Choose whether the AC outlet will output 120V AC or 150V HVDC.

3. USB

Choose whether your USB-A ports are On/Off at start. The default setting is on.

4. SCREEN OFF TIMER

Set the screen auto shut-off time. The default setting is 5 min.

5. AUTO SHUT DOWN

Set the power auto shut-off time. The default setting is 5 min.

6. TEMPERATURE

Choose whether the temperature is displayed in celcius or fahrenheit. Incorrect setting may harm your device.

7. BUTTON LIGHT

Choose whether the button lights are on or off. The default setting is on.

8. TIME REMAINING

Choose whether the time remaining is displayed.

9. LANGUAGE

Choose the screen language.

10. FACTORY RESET

Reset the Omniccharge to factory settings.

Find the model name, capacity, firmware version, and serial number information here.

RECHARGING YOUR OMNICHARGE

1) FROM THE USB-C PORT

USB-C port max input: 45W

Connect a USB-C wall charger and it will automatically start recharging the Omni 20+. If the Omniccharge does not detect incoming power, try to plug in your USB-C charger while the Omniccharge is turned off.

Note: The USB-C and DC port share the same power circuit and cannot be used at the same time.

PASS-THROUGH CHARGING

Pass-through charging means that you input power to the Omniccharge while outputting power to your device (passing the power through the Omniccharge). All Omniccharge products support pass-through charging. This means that you can input power through the USB-C or DC port, and output to the AC, USB-A and wireless.

STORING THE POWERSTATION

When storing the power station for an extended period of time please adhere to the following guidelines. Failure to do so can cause long term damage to the battery cells, and may void your warranty.

Store the powerstation in a cool and dry location.

Shut off the power and disconnect the power cable.

When not in use, the Omniccharge should be stored fully charged, and recharged every 4 months to avoid over depletion.

DEPLOYMENT TIPS

1. Place your stations in visible, high traffic locations.
2. Communicating the availability of the Power Stations will help drive higher usage.
3. If a station is not getting much use, try moving it to a different location. Keeping a station powered on and unused will degrade battery health over time.
4. This product is designed for indoor use only. Keep your Power Station dry and away from moisture, flammable gasses or corrosive materials.
5. Do not set up the power station under direct sunlight or near any direct heat sources. Do not operate with wet hands.

FAQs

1. Can I connect the Power Station to any AC wall outlet, or does it require a dedicated circuit?

Although it is best to connect the Power Station to a dedicated circuit, a regular outlet can also be used if the total power consumption of all connected devices does not exceed the circuit fuse rating. The Power Station must be connected to the grounded AC outlet that can provide 10A of current.

2. How much is the power consumption of the Power Station ?

The 10-bay Power Station's power consumption is 760Wh when all chargers are fully recharged from 0%-100%; The 5-bay is 380Wh

3. How long does it take for the Power Station to fully recharge the batteries?

It takes the Omni Power Station about three hours to fully recharge the batteries.

4. Does the Power Station need an internet connection to work?

The Power Station only needs to be online if you subscribe to the Omni Smart Centre. For regular unlocked usage, an internet connection is not required.

5. How to clean the Power Station and Omni 20+ chargers?

We suggest using non-water-based rubbing alcohol and lint-free cloth to clean off the surface of the Station and units.

6. Can I use all ports simultaneously and pass-through charge between them?

All ports except the DC and USB-C can be used simultaneously and for pass-through charging.

DC and USB-C ports share the same circuitry and cannot operate at the same time. Pass-through charging on the Omni 20+ only functions with a power input from the USB-C or DC port.

7. How to use Wireless charging?

Press the USB-A button to activate the wireless charging and align your phone horizontally with the back edge of the Omniccharge. The flashing wireless icon will appear when the phone has been detected. Some phone cases may interfere with wireless transmission, so we suggest removing the case from your phone if you use one.

8. What is USB PD (Power Delivery)?

The USB-C port on the Omni 20+ supports USB PD. This is a unified charging standard that uses standardized voltages, which allows one universal USB-C charger to power other PD-compatible devices like laptops, tablets, or phones.

9. Why is my device not charging at full speed via USB-C?

Omniccharge uses standard PD (power-delivery) profiles, but not all USB-C cables are USB-PD compatible. We suggest using the original Omniccharge USB-C cable or another brand-name PD-certified cable.

10. Why is my Omni 20+ outputting power when nothing is connected?

This is perfectly normal behavior. The passive power draw can vary from 0.2W-1.5W and is required for the onboard circuits and display.

NOTICE

This product is meant for use only in conjunction with appropriate devices. Please consult your device packaging to determine whether this product is compatible with your particular device. The manufacturer is not responsible for any damages to any device incurred through the use of this product. The manufacturer shall not in any way be liable to you or to any third party for any damages you or any third party may suffer as a result of use, intended or unintended, or misuse of this product in conjunction with any device or accessory other than the appropriate device for which this product is designed. You are responsible for product use with an unintended device and any damages resulting from such use. You agree to indemnify the manufacturer for any resulting injuries to any third party(ies).

TROUBLESHOOTING

How to get in contact with us

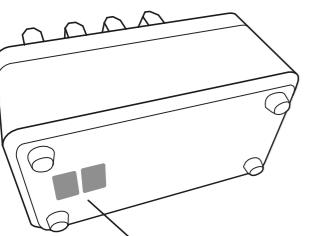

If your Power Station or Omni 20+ encounter any technical problems or if you have any inquiries about your Power Station please contact us via:

 support@omnipower.co

Where to find the PI Address Number and Serial Number of your product.

Power Station:

Place the Power Station on one side, the PI Address and Serial Number stickers are located at the bottom side.

PI Address and Serial Number

Omni 20+:

Each Omni 20+ is engraved with a Serial Number located at the back side.

Serial Number

You can also find the Serial Number of each Omni 20+ in the About section of the menu.

Model:	Omni 20+
Cap:	71Wh
Ver:	1.3.2A/1.0.0A

SAFETY AND HANDLING

Failure to follow these safety instructions can result in fire, electrical shock, injuries, or damage to your Power Station or other property. Read all safety information carefully before using your Power Station.

Read all instructions and cautions carefully before use to avoid personal injury or damage to the unit and any connected products.

Handling

This product is designed for indoor use only. Set up your Omniccharge on a hard, stable work surface which allows for adequate air ventilation around the power bank. The Omniccharge may be damaged if dropped, burned, punctured, crushed, exposed to heat or moisture. Do not use a damaged Omniccharge as it may cause injury.

High Temperature

Do not store the device in high-temperature environments, including heat caused by intense sunlight or other forms of heat. Do not place the device in excessively hot environments like cars or near fire.

Shock or Fire Hazard

Omniccharge products with AC output generate the same potentially lethal AC power as a normal household wall outlet. Please use it carefully just like using a normal AC wall outlet. DO NOT insert foreign objects into outputs or ventilation holes.

DC Output

Omniccharge products with DC output operate on a specified voltage. Check your device specifications for the operating voltage before use. Improper use of DC output may harm your device.

WARNING:

Failure to follow these safety instructions can result in fire, electrical shock, injuries, or damage to your Power Station or other property. Read all safety information carefully before using your Power Station. Do not set up the power station under direct sunlight or near any heat sources like ovens, stoves, etc, as this may cause the Power Station to overheat. The Power Station must be grounded. Never operate your power station in the absence of a suitably installed ground conductor. Before you clean your Power Station, disconnect the power and remove all Omnicchargers. Clean your Power Station with a soft damp cloth and avoid spraying liquid on the Power Station. This product is designed for indoor use only. Keep your Power Station dry and away from moisture, flammable gasses or corrosive materials. Do not operate with wet hands. Do not disassemble this product or attempt to re-purpose or modify it in any manner. The power cable should only be used with the Omni Power Station. Do not use with any other products. The power cable, like any other metal wire or cable, is subject to becoming weak or brittle if repeatedly bent or crushed in the same spot. To avoid damage, do not place any objects on top of the cable. Do not use the power cable if damaged.

BATTERY MAINTENANCE

Grounding

The Power Station must be grounded. Never operate your Power Station in the absence of a suitably installed ground conductor.

Disassembly

Do not disassemble this product or attempt to re-purpose or modify it in any manner.

Cables

The power cable, like any other metal wire or cable, is subject to becoming weak or brittle if repeatedly bent or crushed in the same spot. To avoid damage, do not place any objects on top of the cable. Do not use the power cable if damaged.

Radio Frequencies

The built-in communication module exchanges data with both the cloud and terminal equipment. The equipment operates at in the 2402Mhz to 2480Mhz frequency band(s). Maximum Wi-Fi power transmitted in the operating frequency is +17.9dBm. Maximum bluetooth power transmitted is +3.9dBm.

Recycling

The battery in your device should be serviced or recycled by an authorized service provider, and must be recycled or disposed of separately from household waste. Dispose of batteries according to your local environmental laws and guidelines. If no laws or regulations govern, dispose of your Omniccharge in a waste bin for electronics.

SECURITÉ ET MANIPULATION

Lisez attentivement les instructions et les avertissements avant d'utiliser votre Omniccharge pour éviter de dommages personnels, à l'unité ou à d'autres appareils connectés.

Manipulation

Placez l'Omniccharge sur une surface stable qui permette un flux d'air adéquat pour la ventilation. L'Omniccharge pourrait être endommagé en cas de chute, brûlure, perforation, écrasement, ou d'exposition à l'humidité ou à des températures élevées. N'utilisez pas un Omniccharge endommagé, car cela pourrait provoquer des dommages corporels.

Haute température

Ne stockez pas l'appareil dans des environnements à haute température, y compris la chaleur causée par la lumière solaire intense ou d'autres formes de chaleur. Ne placez pas l'appareil dans des environnements excessivement chauds comme des voitures ou près d'un feu. N'utilisez pas le câble s'il est endommagé.

Risque d'incendie ou de décharge électrique

Les produits Omniccharge avec un port AC génèrent la même tension AC potentiellement létale qu'une prise électrique murale, et devraient être utilisés pareil. N'INSÉREZ PAS d'objets étrangers dans sorties ou les fentes d'aération.

Port DC (courant continu)

Les produits Omniccharge avec un port DC ont un voltage spécifique. Veuillez consulter les spécifications de tension de vos appareils avant de les connecter. Un mauvais usage du port DC pourrait les endommager.

AVERTISSEMENT:

Ne pas respecter ces indications de sécurité pourrait entraîner des incendies, des chocs électriques, des blessures, ou des dommages à votre Power Station ou à d'autres biens. N'installez pas votre Power Station sous la lumière solaire directe ou à proximité de sources de chaleur telles que des fours, cuisinières, etc. Cela pourrait causer que la Power Station surchauffe. La Power Station doit être mise à la terre. N'utilisez jamais la Power Station en l'absence d'un conducteur de terre correctement installé. Avant de nettoyer votre Power Station, déconnectez son alimentation et retirez tous les Omnicchargers. Nettoyez votre Power Station à l'aide d'un chiffon doux humide, et évitez des éclaboussures de liquide sur elle.

Ce produit a été conçu pour l'utilisation à l'intérieur. Tenez votre Power Station au sec et à l'abri de l'humidité, gaz inflammables et matériaux corrodants, et ne l'utilisez jamais avec les mains mouillées. Ne démontez pas ce produit, et n'essayez pas de le réutiliser, ou de le modifier en aucune manière. Le câble d'alimentation ne devrait être utilisé qu'avec l'Omni Power Station. Ne l'utilisez pas avec d'autres dispositifs. Comme tout autre fil métallique, le câble d'alimentation est susceptible de s'affaiblir ou de se fragiliser s'il est plié ou écrasé de manière répétée. Pour éviter des tels dommages, ne posez aucun objet dessus. N'utilisez pas le câble s'il est endommagé.

Mise à la terre

La Power Station doit être mise à la terre. N'utilisez jamais la Power Station en l'absence d'un conducteur de terre correctement installé.

Démontage

Ne démontez pas ce produit, et n'essayez pas de le réutiliser, ou de le modifier en aucune manière.

Câbles

Le câble d'alimentation ne devrait être utilisé qu'avec l'Omni Power Station. Ne l'utilisez pas avec d'autres dispositifs. Comme tout autre fil métallique, le câble d'alimentation est susceptible de s'affaiblir ou de se fragiliser s'il est plié ou écrasé de manière répétée. Pour éviter des tels dommages, ne posez aucun objet dessus. N'utilisez pas le câble s'il est endommagé.

Fréquences de radio

Le module de communications intégré échange des données entre le cloud et l'équipement terminal. L'appareil fonctionne dans les bandes de fréquence 2402Mhz à 2480Mhz. Le signal de Wi-Fi maximal est de +17.9dBm dans la fréquence d'opération, et celle de Bluetooth est de +3.9dBm.

Recyclage

La batterie de l'Omniccharge devrait être traitée par un agent autorisé, et être recyclée ou éliminée séparément des déchets ménagers. Mettez la batterie au rebut conformément aux réglementations locales ou, en leur absence, comme un appareil électronique.

ENTRETIEN DE LA BATTERIE

L'Omni 20+ se sert de batteries au lithium dont le nombre de cycles est limité selon l'entourage et l'utilisation. Suivez ces directives pour maximiser la durée de vie de la batterie. Lorsque les batteries sont déchargées au-delà de celle-ci, elles devront être remplacées. Contactez votre vendeur ou Omniccharge, à support@omnipower.co pour assistance.

- Essayez d'équilibrer l'utilisation de vos batteries Omniccharge. L'usage excessif d'une seule batterie peut réduire sa durée de vie.

- Les batteries au lithium ne devraient pas rester branchées à la Power Station lorsqu'elles ne sont pas utilisées. Si votre Power Station n'est pas utilisée pendant plus d'une semaine, nous recommandons d'éteindre la Power Station et les Omniccharges, et de les recharger tous les 3-4 mois.

La garantie ne couvre pas les batteries défectueuses à cause d'une mauvaise utilisation, d'un abus, du temps, ou d'un entretien inapproprié.

Précautions concernant la batterie

L'Omniccharge n'est pas prévu pour être réparé par l'utilisateur. N'essayez pas de changer ou de modifier la batterie. Cela pourrait provoquer une surchauffe, un incendie ou des blessures. Les batteries manipulées incorrectement présentent un risque de fuite, d'explosion et de dommages corporels. Toute manipulation de la batterie annulera automatiquement la garantie.

SICHERHEIT UND HANDHABUNG

Lesen Sie bitte alle Anweisungen und Sicherheitshinweise sorgfältig vor dem Gebrauch durch, um Verletzungen oder Schäden am Produkt und den hieran angeschlossenen Geräten zu vermeiden.

Handhabung

Verwenden Sie Omniccharge auf einem harten und stabilen Untergrund, der eine ausreichende Belüftung der Powerbank garantiert. Das Omniccharge-Gerät kann Schaden nehmen, wenn es fallen gelassen, angezündet oder gedrückt wird, andere Einwirkungen von außen erfährt oder Hitze bzw. Feuchtigkeit ausgesetzt ist. Ein defektes Omniccharge unter keinen Umständen verwenden, da Verletzungsgefahr besteht.

Hohe Temperatur

Lagern Sie das Gerät nicht in Umgebungen mit hohen Temperaturen, einschließlich Hitze, die durch intensives Sonnenlicht oder andere Formen von Wärme verursacht wird. Stellen Sie das Gerät nicht in übermäßig heiße Umgebungen wie Autos oder in die Nähe von Feuer.

Stromschlag- oder Brandgefahr

Omniccharge-Produkte mit AC-Steckdose erzeugen denselben potenziell tödlichen Wechselstrom wie eine normale Haushaltssteckdose. Bitte verwenden Sie das Gerät mit äußerster Vorsicht und wie eine herkömmliche Steckdose. Stecken Sie KEINE Fremdkörper in die Ausgänge oder Lüftungsöffnungen.

Gleichstrom (DC)-Ausgang

Omniccharge-Produkte mit DC-Ausgang nutzen eine bestimmte Spannung. Prüfen Sie vor der Verwendung die technischen Daten Ihres Geräts hinsichtlich der Betriebsspannung. Eine fehlerhafte Verwendung des DC-Ausgangs kann Ihr Gerät beschädigen.

WARNUNG:

Bei Nichtbeachtung dieser Sicherheitshinweise kann es zu Bränden, Stromschlägen, ernsthaften Verletzungen oder Schäden an Ihrer Power Station sowie anderweitigem Sachschaden kommen. Lesen Sie alle Sicherheitshinweise unbedingt sorgfältig durch, bevor Sie Ihre Omni Power Station benutzen. Setzen Sie die Power Station nicht direkter Sonneneinstrahlung aus. Stellen Sie die Power Station nicht in unmittelbarer Nähe von Wärme erzeugenden Geräten wie Heizungen oder Öfen auf, da dies zu einer Überhitzung der Power Station führen kann. Die Power Station muss geerdet sein. Betreiben Sie Ihre Power Station niemals ohne einen ordnungsgemäß installierten Schutzleiter. Bevor Sie die Power Station reinigen, unterbrechen Sie die Stromversorgung und entfernen Sie alle Omniccharge-Geräte. Reinigen Sie Ihre Power Station ausschließlich mit einem weichen, feuchten Tuch und verwenden Sie keine Flüssig- oder Sprühreiniger. Dieses Gerät ist nur für den Gebrauch in Innenräumen vorgesehen. Halten Sie Ihre Power Station stets trocken und fern von Feuchtigkeit, brennbaren Gasen oder korrosiven Materialien. Bedienen Sie das Gerät nicht mit nassen Händen. Zerlegen Sie dieses Produkt unter keinen Umständen und versuchen Sie nicht, die Omni Power Station in irgendeiner Weise umzufunktionieren oder zu modifizieren. Das Netzkabel darf nur mit der Power Station verwendet werden. Verwenden Sie es nicht mit anderen Geräten. Wie alle herkömmlichen Metalldrähte oder Kabel kann auch dieses Kabel schwach oder brüchig werden, wenn es wiederholt an derselben Stelle geknickt oder gequetscht wird. Vermeiden Sie Schäden, indem Sie keine Gegenstände auf das Kabel legen. Verwenden Sie das Netzkabel nicht, wenn es Beschädigungen aufweist.

BATTERIEWARTUNG

Erdung

Die Power Station muss geerdet sein. Betreiben Sie Ihre Power Station niemals ohne einen ordnungsgemäß installierten Erdungsleiter.

Unerlaubte Manipulation

Zerlegen Sie dieses Produkt nicht und versuchen Sie nicht, es anderweitig umzufunktionieren oder zu modifizieren.

Kabel

Das Netzkabel kann, wie alle herkömmlichen Metalldrähte oder Kabel, spröde oder brüchig werden, wenn es wiederholt an derselben Stelle geknickt oder gequetscht wird. Vermeiden Sie Schäden am Kabel, indem Sie keine Gegenstände auf das Kabel legen. Verwenden Sie das Netzkabel nicht, wenn es Beschädigungen aufweist.

Funkfrequenzen

Das eingebaute Kommunikationsmodul ermöglicht einen Datenaustausch mit der Cloud sowie den Endgeräten. Das Gerät verwendet Frequenzbänder im Bereich 2402Mhz bis 2480Mhz. Im Betrieb beträgt die Frequenz des WLAN-Signals maximal +17,9 dBm. Die Bluetooth-Signalstärke erreicht maximal +3,9 dBm.

Recycling

Der Omniccharge-Akku kann nur von einem autorisierten Fachhändler gewartet oder recycelt werden. Recycling und Entsorgung müssen getrennt vom Hausmüll erfolgen. Entsorgen Sie den Akku gemäß der örtlichen Umweltschutzgesetzen und -richtlinien. Bei Nichtvorhandensein entsprechender Gesetze oder Vorschriften, entsorgen Sie Ihren Omniccharge in einem Behälter für elektronische Abfälle.

ATTENZIONE:

Bei Nichtbeachtung dieser Sicherheitshinweise kann es zu Bränden, Stromschlägen, ernsthaften Verletzungen oder Schäden an Ihrer Power Station sowie anderweitigem Sachschaden kommen. Lesen Sie alle Sicherheitshinweise unbedingt sorgfältig durch, bevor Sie Ihre Omni Power Station benutzen. Setzen Sie die Power Station nicht direkter Sonneneinstrahlung aus. Stellen Sie die Power Station nicht in unmittelbarer Nähe von Wärme erzeugenden Geräten wie Heizungen oder Öfen auf, da dies zu einer Überhitzung der Power Station führen kann. Die Power Station muss geerdet sein. Betreiben Sie Ihre Power Station niemals ohne einen ordnungsgemäß installierten Schutzleiter. Bevor Sie die Power Station reinigen, unterbrechen Sie die Stromversorgung und entfernen Sie alle Omniccharge-Geräte. Reinigen Sie Ihre Power Station ausschließlich mit einem weichen, feuchten Tuch und verwenden Sie keine Flüssig- oder Sprühreiniger. Dieses Gerät ist nur für den Gebrauch in Innenräumen vorgesehen. Halten Sie Ihre Power Station stets trocken und fern von Feuchtigkeit, brennbaren Gasen oder korrosiven Materialien. Bedienen Sie das Gerät nicht mit nassen Händen. Zerlegen Sie dieses Produkt unter keinen Umständen und versuchen Sie nicht, die Omni Power Station in irgendeiner Weise umzufunktionieren oder zu modifizieren. Das Netzkabel darf nur mit der Power Station verwendet werden. Verwenden Sie es nicht mit anderen Geräten. Wie alle herkömmlichen Metalldrähte oder Kabel kann auch dieses Kabel schwach oder brüchig werden, wenn es wiederholt an derselben Stelle geknickt oder gequetscht wird. Vermeiden Sie Schäden, indem Sie keine Gegenstände auf das Kabel legen. Verwenden Sie das Netzkabel nicht, wenn es Beschädigungen aufweist.

SICUREZZA E MANOVRALITÀ

Messa a terra

La Power Station deve essere collegata a terra. Non utilizzare mai la Power Station in assenza di un conduttore di messa a terra adeguatamente installato.

Smontaggio

Non smontare il prodotto e non tentare di riutilizzarlo o modificarlo in alcun modo.

Cavi

Il cavo di alimentazione, come qualsiasi altro filo o cavo metallico, è soggetto a deperimento se viene ripetutamente piegato o schiacciato nello stesso punto. Per evitare che si danneggi, non collocare alcun oggetto sul cavo. Non utilizzare il cavo di alimentazione se danneggiato.

Frequenze radio

I moduli di comunicazione integrati scambiano dati sia con il cloud che con l'apparecchiatura di terminale. L'apparecchiatura opera nella banda di frequenza da 2402Mhz a 2480Mhz. Il segnale Wi-Fi massimo è di +17,9dBm nella frequenza operativa. La potenza massima di trasmissione del Bluetooth è di +3,9 dBm.

Riciclaggio

La batteria del tuo dispositivo deve essere manutenuta o riciclata dagli operatori autorizzati che si dedicano al servizio di raccolta e smaltimento dei rifiuti nella tua località, separata dagli altri rifiuti domestici. Se non ce ne sono, scartalo come dispositivo elettronico.

ATTENZIONE:

La mancata osservanza di queste istruzioni di sicurezza può provocare incendi, scosse elettriche, lesioni o danni alla Power Station o ad altri dispositivi. Leggi attentamente tutte le informazioni sulla sicurezza prima di utilizzare la tua Power Station. Non lasciare la Power Station sotto la luce diretta del sole o vicino a fonti di calore come fornelli, stufe, ecc. per evitare il surriscaldamento del dispositivo. La Power Station deve essere collegata a terra. Non utilizzare mai la Power Station in assenza di un conduttore di messa a terra adeguatamente installato. Prima di pulire la tua Power Station, scollega l'alimentazione e rimuovi tutti i prodotti Omniccharge. Pulisci la tua Power Station con un panno morbido e umido, evitando di spruzzare liquidi sulla Power Station. Questo prodotto è progettato solo per l'uso interno. Tenere la Power Station all'asciutto e lontano dall'umidità, gas infiammabili o materiali corrosivi. Non operare con le mani bagnate. Non smontare il prodotto e non tentare di riutilizzarlo o modificarlo in alcun modo. Il cavo di alimentazione deve essere utilizzato solo con la Omni Power Station. Non utilizzare con altri prodotti. Il cavo di alimentazione, come qualsiasi altro filo o cavo metallico, è soggetto a deperimento se viene ripetutamente piegato o schiacciato nello stesso punto. Per evitare che si danneggi, non collocare alcun oggetto sul cavo. Non utilizzare il cavo di alimentazione se danneggiato.

MANTENIMENTO DELLA BATTERIA

L'Omni 20+ utilizza batterie al litio che hanno un numero limitato di cicli a seconda dell'uso e dell'ambiente. Per massimizzare la durata delle batterie, atteniti alle seguenti indicazioni. Una volta esaurite, le batterie dovranno essere sostituite. Per assistenza, contattala il proprio rivenditore o support@omnipower.co.

- Cerca di bilanciare l'uso delle batterie Omniccharge. L'uso eccessivo di una singola batteria può ridurre la vita utile delle celle stesse.

- Le batterie al litio non devono essere lasciate a lungo in carica sulla Power Station senza essere utilizzate. Se la Power Station non viene utilizzata per più di una settimana, ti consigliamo di spegnerla assieme ai caricabatterie e di ricaricarla ogni 3-4 mesi.

Le batterie che si guastano a causa di uso improprio, età o manutenzione non corretta non sono coperte dalla nostra garanzia.

Precauzioni relative alle batterie
L'Omniccharge non è riparabile dall'utente; non tentare di sostituirle o modificarla la batteria da solo, per evitare di danneggiarla e causare surriscaldamento, incendio o lesioni. Le batterie non correttamente sostituite possono comportare il rischio di perdite, esplosioni e lesioni personali. Qualsiasi manipolazione del prodotto o dei suoi componenti annulla tutte le garanzie.

SEGURIDAD Y MANIPULACIÓN

Lee con atención todas las instrucciones y advertencias antes de usar tu Omniccharge, para evitar daños personales, a la unidad y a todos los dispositivos conectados.

Manipulación

Apoya el Omniccharge en una superficie de trabajo estable, que permita un flujo de aire adecuado para la ventilación. El Omniccharge puede dañarse en caso de caída, quemado, pinchado, aplastado o si es expuesto a humedad y/o temperaturas altas. No uses un Omniccharge dañado, puede causar lesiones.

Alta temperatura

No almacene el dispositivo en ambientes de alta temperatura, incluido el calor causado por la luz solar intensa u otras formas de calor. No coloque el dispositivo en ambientes excesivamente calientes como automóviles o cerca del fuego.

Riesgo de incendio o electrocución

Los productos Omniccharge con salida AC generan la misma energía de AC potencialmente letal que un enchufe de pared, y debe ser usado de la misma manera. NO insertes cuerpos extraños en las salidas o las ranuras de ventilación.

Salida DC

Los productos Omniccharge con salida DC (corriente continua) funcionan en un voltaje específico. Consulta las especificaciones del voltaje de tu dispositivo antes de usarlo. El mal uso de la salida DC podría dañar tu dispositivo.

ADVERTENCIA:

No seguir estas instrucciones de seguridad puede derivar en incendios, descargas eléctricas, heridas, o daños en la Power Station u otros dispositivos. Lee atentamente la siguiente información antes de utilizar tu Power Station.
No instales tu Power Station bajo luz solar directa, o cerca de fuentes de calor como hornos, estufas, etc. Esto podría sobrecalentarla. La Power Station debe estar conectada a tierra. Nunca la pongas en funcionamiento en ausencia de un conductor de tierra convenientemente instalado. Antes de limpiar tu Power Station, desconéctalas de la corriente y retira todos los Omnicchargers. Limpia tu Power Station con un paño suave y ligeramente humedecido, y evita salpicar líquidos sobre ella. Este producto ha sido exclusivamente diseñado para espacios interiores. Mantén tu Power Station seca y resguardada de la humedad, gases inflamables o materiales corrosivos. No la manipules con las manos mojadas. No desmontes este producto, o intentes reutilizarlo o modificarlo de ninguna manera. El cable de alimentación solo debe ser utilizado con la Omni Power Station. No lo utilices con otros productos. Como cualquier cable o filamento metálico, doblar, pisar, o aplastar el cable de alimentación repetidamente puede debilitarlo o estropearlo. Para evitar tales daños, no pongas ningún objeto sobre el cable. Y no utilices el cable de alimentación si presenta daños.

MANTENIMIENTO DE LA BATERÍA

Conexión a tierra

La Power Station debe estar conectada a tierra. Nunca la pongas en funcionamiento en ausencia de un conductor de tierra convenientemente instalado.

Desmontaje

No desmontes este producto, o intentes reutilizarlo o modificarlo de ninguna manera.

Cables

Como cualquier cable o filamento metálico, doblar, pisar, o aplastar el cable de alimentación repetidamente puede debilitarlo o estropearlo. Para evitar tales daños, no pongas ningún objeto sobre el cable. Y no utilices el cable de alimentación si presenta daños.

Frecuencias de radio

El módulo de comunicaciones integrado intercambia datos entre el terminal y la nube. Este equipo opera en la banda de frecuencias de 2402Mhz a 2480Mhz.

La señal máxima de Wi-Fi es de +17.9dBm en la frecuencia de funcionamiento. La potencia máxima de transmisión del Bluetooth es de +3.9dBm.

Reciclaje

La batería de tu unidad debe ser tratada o reciclada por un agente autorizado, y debe ser reciclada o desechara separada de la basura doméstica. Desecha la batería de acuerdo a las indicaciones de tu normativa local. De no haberlas, deséchala como dispositivo electrónico.

Precauciones sobre la batería

El Omniccharge no está pensado para que el usuario lo pueda arreglar. No intentes cambiar o modificar la batería. Podría causar sobrecalentamiento, fuego o lesiones. Las baterías cambiadas incorrectamente tienen riesgo de fugas, explosiones y lesiones personales. Cualquier manipulación de la unidad o sus componentes anulará automáticamente cualquier garantía.

安全性と取り扱い

これらの安全に関する指示に従わない場合、火災、感電、けが、またはPower Station やその他所有物へ損傷を与える可能性があります。Power Station を使用する前に、すべての安全情報をお読みください。

けがや本機および接続された製品の損傷を避けるため、ご使用前にすべての取扱説明書と注意事項をよくお読みください。

取り扱いについて

本製品は屋内専用です。Omnicchargeは、パワーバンク周辺に十分な換気ができる硬くて安定したところに設置してください。Omnicchargeを落したり、燃やしたり、穴を開けたり、押しつぶしたり、熱や湿気にさらしたりすると損傷する可能性があります。けがをする恐れがあるので、破損したOmnicchargeは使用しないでください。

高溫

強い日差しなどによる熱を含む、高温の環境下でデバイスを保管しないでください。車内や火気の近くなど、過度に高温になる場所には置かないでください。

感電・火災の危険性

AC出力を備えたOmniccharge製品は、通常の家庭用コンセントと同じ致死性のAC電力を生成します。通常のコンセントと同じように、慎重に使用してください。出力端子や通気孔に異物を入れないでください。

DC出力

DC出力を備えたOmniccharge製品は、指定された電圧で動作します。使用する前に、デバイスの仕様で動作電圧を確認してください。DC出力の不適切な使用は、デバイスに損傷を与える可能性があります。

警告

以下の安全に関する指示に従わない場合、火災、感電、けが、またはお使いの Power Stationおよびその他所有物への損傷につながる可能性があります。Power Stationをご使用前に、必ず安全情報をご一読ください。Power Stationの過熱を防ぐため、直射日の当たる場所や、オープン、ストーブなど熱源の近くに設置しないでください。Power Stationにはアース接続が必要です。適切に設置された接地導体がない状態で、Power Stationを使用しないでください。Power Station本体を掃除する場合は、掃除前に必ず電源を切り、接続されている Omniccharge/バッテリを取り外してください。柔らかい湿った布で本体の汚れを取り、決して液体を噴霧しないでください。本機は屋内使用を目的としています。Power Stationは乾いた状態で保ち、湿気、可燃性ガスや腐食性物質から離してください。また濡れた手では決して操作しないでください。決して本機を分解したり、別の目的で使用したり、改造しないでください。付属のAC電源ケーブルは本製品の専用品です。他の製品には使用しないでください。

AC電源ケーブルは、他の金属線やケーブル同様、繰り返し同じ個所を曲げたりつぶしたりすると、もろく弱くなります。損傷を防ぐため、AC電源ケーブル上に物を置かないでください。また、損傷したAC電源ケーブルは使用しないでください。

バッテリー メンテナンス

Omni 20+はリチウム電池を使用しており、使用状況や環境に応じて使用可能な回数に限りがあります。バッテリーの寿命を最大限に延ばすために、以下のガイドラインを参考にしてください。電池の寿命が短くなると、ユニットの交換が必要になります。サポートが必要な場合は、販売代理店または support@omnipower.co にお問い合わせください。

- Omniccharge バッテリーの使用バランスを取るようにしてください。単一のバッテリーセルの寿命が短くなります。

- リチウム電池を使用せず常にステーションで充電したままにすることを避けください。Power Stationを1週間以上使用しない場合は、ステーションと充電器の電源を切り、3～4か月に一度は充電することをお勧めします。

誤用、乱用、経年劣化、不適切なメンテナンスにより故障したバッテリーは、保証の対象外となります。

バッテリーに関する注意事項

Omnicchargeをユーザーが修理することはできません。バッテリーが損傷し、過熱、火災、怪我の原因となる可能性がありますので、ご自身で電池の交換や改造を試みないでください。不適切な電池交換は液漏れ、爆発、および人身事故の危険があります。なお、本機やその部品に手を加えるとすべての保証が無効となります。

OMNICHARGE ONE-YEAR LIMITED MANUFACTURER'S WARRANTY

Omnicharge warrants that its hardware product shall be free from defects in materials and workmanship for one (1) year beginning from the date of original retail purchase. Omniccharge does not warrant against normal wear and tear, nor damage caused by accident or abuse.

See www.omnicharge.co/warranty for specific warranty information about your product and procedures to act on a warranty claim. Omniccharge's entire liability and your exclusive remedy for any breach of warranty shall be at Omniccharge's option, to repair or replace a functional equivalent of the product. You may be required to furnish proof of purchase details when making a claim under this warranty. Warranty protections are in addition to rights provided under local consumer laws and may vary among countries, states and provinces. See the full warranty information to know your consumer rights and the additional protections provided by this product warranty.
